

# Rwanda

In August 1994, 114 members of the Battalion, mainly Alpha Company deployed to Rwanda as part of the Medical Support Force for the **United Nations Mission UNAMIR II**. The nucleus of the 2/4 RAR contingent was Alpha Company, tasked to provide security for the Australian Medical Support Force. Other 2/4 RAR personnel were employed in the Contingent Headquarters, as medical assistants and in logistical support functions..

It was during the Battalion's deployment to Rwanda on **Operation Tamar** in 1994, that the Australian Government made the decision to unlink the 2<sup>nd</sup> / 4<sup>th</sup> Battalion. This was a result of the 1994 Defence White Paper which identified the need for an additional Infantry Battalion to enhance the Army's capability to meet strategic guidance requirements.
